development codes) that support Complete Streets principles. University of Delaware, Institute for Public Administration will work with at least two municipalities to include language that support Complete Street principles in their municipality comprehensive plans. To evaluate impact signage at ECG for utilization and awareness and bicycling awareness via bicycling maps and evaluate impact of implementing the food policy at Delaware State Parks. : Increase the number of Delaware municipalities implementing a MAPPS tobacco prevention intervention from two to eight by 2012. Delaware will implement multiple tobacco related policy initiatives combining a few of the MAPPS strategies. The current tobacco prevention community outreach contract with the American Lung Association in Delaware will provision technical assistance and training workshops on tobacco education, a mini grant program, development and maintenance of local tobacco prevention coalitions and develop of resource kits. Funds awarded for this initiative would be added to the contract to allow the contractor to provide additional training and technical assistance workshops to local politicians, policy makers and community leaders on the MAPPS intervention strategies for tobacco. Mini grants will then be available for the municipalities to implement a MAPPS intervention in their jurisdiction.
